

V-Gard® GREEN Protective Helmet

The world's first hard hat made from renewable resources

A safety helmet that protects more than your head

MSA has been a pioneer in safety for nearly 100 years, starting with our first Personal Protective Equipment (PPE) products designed to better protect underground miners. That tradition continues into the next century with the introduction of the V-Gard GREEN.

V-Gard GREEN helmets are produced from green high-density polyethylene (GHDPE), a biopolymer made from sugarcane-based ethanol. GHDPE is a renewable resource because sugarcane growth exceeds the rate of harvest.

Identifying a V-Gard GREEN helmet

There are three ways to identify an MSA V-Gard GREEN helmet:

External side identification label

Internal identification label

V-Gard® GREEN	
The first industrial helmet produced from renewable resources.	
POLYETHYLENE DERIVED FROM SUGARCANE 100% RENEWABLE RAW MATERIAL	HDPE 100% RECYCLABLE PRODUCT
SUGARCANE CAPTURES AND SEQUESTERS CO ₂ FROM THE ATMOSPHERE, HELPING REDUCE GREENHOUSE GAS EMISSIONS AND PREVENT GLOBAL WARMING.	QUALITY ASSURED
For more information about the V-Gard helmet made from renewable sources, visit www.MSAsafety.com	MSA The Safety Company
